September 19th, 2017

Dear Parents,

The Madison Area POD (Points of Dispensing) will be offering **FREE** influenza vaccine to all children 6 months through 18 years of age on Thursday October 19th at the Howard High School and Elementary School. This flu shot clinic will be a test/exercise for the Madison Area POD Plan. A POD Plan is a coordinated effort among several agencies and community members to dispense and distribute medications or vaccine to a regional population in an efficient/effective manner. There will be more information sent home with children as the date of the clinic approaches.

Yours in Health,

Lake County and Miner County Community Health Offices
